

Solar Panels

Mapal is a leading manufacturer of polypropylene sheets for use in solar collector back plates.

Embedding of Custom Logo

*Maplon™ - Registered Trade Mark of Mapal Plastics Ltd

Advantages:

- **Lightweight:** reduces total weight of panel.
- **Cost Effective:** Less than metal/aluminium panels.
- **Strength:** The special formulation allows for excellent bonding between polypropylene sheets and polyurethane foam adds strength to the panel.
- **Environment:** PP sheets are non-corrosive, ozone friendly, and 100% recyclable.
- **High Temperature Resistance:** Vicat softening point (ASTM) is 145°C. Heat distortion Temperature (ASTM D648) is 85°C.

Other Mapal PP Products:

- Digital Printing Sheets
- Super Opaque Sheets
- Flame Retardant Sheets
- Anti-Microbial Sheets
- Sheets for Thermoforming
- Anti-Static Sheets
- Slip Sheets
- Chairmats
- Gamma Stabilized Sheets
