

## Slip Sheets

Multilayered polymer sheet used for palletless materials handling in warehouses and factories.

- Thickness: 0.5 mm

1. Extend the pusher plate so that the slipsheet lip fits into the gripper channel opening

2. Retract the pusher plate. The gripper bar will automatically clamp the slipsheet lip

3. Move forward slowly as the load is being pulled onto the plastic

\*Maplon™ - Registered Trade Mark of Mapal Plastics Ltd

- 98% saving in stacking space.
- Less return transport.
- Less handling.
- Improved hygiene - (no need for pallet disinfection.)
- Stronger and more resilient.
- Recyclable.
- Weather resistant.
- Lowest price per unit.
- Multi-usable.
